Intercession City, Florida

TO: Commissioner Peggy Choudhry, Osceola County District 1

FROM: A Better Tomorrow .World Corp, a Florida not-for-profit corporation (Document No. N26000013590 | EIN 43-2336543)

DATE: October 10, 2026

RE: Facility Lease Request: Community Empowerment & Re-entry Hub

LOCATION: 1525 Immokalee St, Intercession City, FL 33848

Dear Commissioner Choudhry,

On behalf of A Better Tomorrow World, we write to formally request the lease and use of the vacant, county-owned facility at 1525 Immokalee St, Intercession City, FL 33848. We have incorporated as a Florida not-for-profit corporation (effective October 1, 2026), obtained our federal EIN, and are preparing our application to the IRS for recognition as a 501(c)(3) public charity. Our goal is to fully rehabilitate this neglected and overgrown structure and turn it into a multi-partner community hub serving local families, at-risk youth, seniors and returning citizens.

Our approach is to serve as the last mile. Central Florida already has strong agencies and nonprofits doing important work. We do not duplicate what others do well. Instead, the hub will be their local point of contact, bringing their food, services and programs directly to residents of Intercession City and Campbell City who are hard to reach.

Official County Property Data & Physical Evaluation

Property Parameter	Official County Record / Direct Field Assessment
Parcel ID	33-25-28-3500-0019-0080
Current Owner	OSCEOLA COUNTY (Attn: Real Estate Management Dept)
Property Address	1525 IMMOKALEE ST, INTERCESSION CITY, FL 33848
Primary Designated Use	NON-PROFIT SERV-IMP (Code: 7511)
Physical Structure	Modular, double-wide facility featuring an exterior wooden access ramp and a fully enclosed chain-link perimeter fence.
Current Condition	Currently vacant, neglected, heavily overgrown with unmaintained vegetation, and severely lacking municipal curb appeal. It represents a persistent maintenance burden and active visual blight for the local residential corridor.

The Building Today

Photos taken from the public sidewalk in October 2026. The building has been left unmaintained since it was vacated. TPKBPRO's crews and our volunteers plan an estimated $10,000 in donated restoration.

Entry side
Weathered wooden stairs and deck at the main entrance.

Street side
Vines on the siding and a damaged oak close to the building.

Rear wall
Stained siding around the county-owned HVAC unit.

What the restoration will address

- Pressure-wash and paint all exterior siding
- Repair or rebuild the wooden stairs, deck and access ramp
- Clear vines and overgrowth from the walls and fence line
- Trim or remove the damaged oak, with county approval
- Coordinate with county facilities technicians on the HVAC unit
- Mow, landscape and prepare beds for the community garden

Proposed Use: A Two-Phase Development Model

We will not launch programs until the building's interior and exterior are fully restored. Once our volunteer crews and private partners complete the rehabilitation, we will open the hub in two phases.

Phase 1: Community Hub Launch (Post-Rehabilitation)

• **Vanguard Scholars After-School Program (Veteran-Led Mentorship):** Modeled on UCF's long-running Soldiers to Scholars program and built with student veterans attending Valencia College and Osceola Technical College (oTECH), this program covers tuition and fees for student veterans, bridging Post-9/11 GI Bill gaps or supporting veterans whose benefits have run out. In exchange, they volunteer 7 to 10 hours per week as Vanguard Mentors, delivering daily reading, writing and math tutoring to local youth and teaching the Travis Manion Foundation (TMF) "Character Does Matter" curriculum in screen-free, face-to-face sessions. Every participating child eats a nutritious hot meal before going home, and families can enroll eligible K–5 readers in New Worlds Reading's free books-at-home program.

• **SNAP & Healthcare Benefits Navigation:** Trained volunteers will staff digital navigation stations to help families and returning citizens apply for SNAP, Medicaid and county health resources, overcoming the area's digital divide and transit isolation. We intend to apply to become a Florida DCF ACCESS Community Partner site.

• **Food Security & Crisis Outreach:** With Second Harvest Food Bank of Central Florida, U.S. Hunger and Living Water Fellowship Food Pantry in Intercession City, the hub will serve as a local storage and pickup point for emergency food bags and nutrition boxes, closer to the families who need them.

• **Senior Food Delivery (The Last Mile):** We aim to serve as the local last-mile partner for established senior meal programs such as the Osceola Council on Aging's Meals on Wheels. The hub receives the food, and volunteer drivers deliver it to homebound seniors in Intercession City and Campbell City.

• **Veteran-Led Neighborhood Revitalization (TMF "Operation Legacy"):** Under TMF's Operation Legacy framework and its motto "If Not Me, Then Who...", veterans from AMVETS Intercession City will lead youth, at-risk young adults and returning citizens on service crews that clean up blight, paint seniors' homes and pressure-wash properties. Crews will also join seasonal neighborhood cleanups and honor fallen heroes at regional cemeteries around Memorial Day through TMF's "The

Honor Project."

• **NCHEC-Certified Homeownership Counseling:** Counselors certified through the NeighborWorks Center for Homeownership Education and Counseling (NCHEC) will lead on-site credit-building, budgeting and home-buying workshops, guiding residents from unstable rentals toward affordable homeownership and long-term neighborhood stability.

• **Youth Horticulture & Environmental Science:** The land around the building becomes community gardens where youth learn plant biology and environmental science while growing fresh produce for local families, with UF/IFAS Osceola County Extension and 4-H as a natural program partner.

• **Seasonal Community Impact Initiatives:** Free certified tax preparation through the IRS Volunteer Income Tax Assistance (VITA) program; Pepsi and Verizon backpack distribution events; an annual Community Health Fair with free screenings, vaccines and wellness education alongside regional healthcare partners such as AdventHealth Celebration; and Toys for Tots with the Salvation Army at Christmas.

Phase 2: Paths to Good-Paying Work (Future Regional Site)

As the hub's families gain stability and our funding grows, we will open a larger site in the region with CareerSource Central Florida, the Osceola Chamber of Commerce, Valencia College Accelerated Skills Training, oTECH and the Adult Learning Center Osceola (ALCO). Phase 2 turns today's volunteer programs into paid jobs and training.

• **Adult Upskilling & Trade Academy:** Intensive, multi-week certification courses (commercial kitchen installation, welding, refrigeration repair and HVAC) for adults, at-risk youth and returning citizens, connected to high-demand jobs across Osceola and Orange counties. Graduates will be guided to industry credentials and scholarships such as ABC Central Florida craft training, MSSC logistics certifications and Mike Rowe WORKS Foundation trade scholarships.

• **Affordable Community Daycare:** Parents cannot work or train without affordable childcare. An on-site daycare removes that barrier so single parents and low-income families can train for, and keep, career-level jobs.

• **Transitional Paid Positions:** Paid work crews (landscaping, pressure-washing and property upkeep), a community kitchen with culinary training, and paid delivery and logistics roles. Each position is a stepping stone: participants train, work and build a resume, move up to a higher-wage job with an employer partner, and open their spot for the next applicant.

• **Re-entry Support & Job Shuttle:** A re-entry desk to help residents restore IDs, driver's licenses and records, referrals to Valencia College's YouthBuild program for young adults ages 17–24, and a shuttle bus running twice a day to SunRail, Valencia College Poinciana, ALCO and oTECH Poinciana for neighbors without reliable transportation.

Year-One Goals

The building is small, so we are starting focused. These are our measurable targets for the first full year after the hub opens.

10 students tutored every week	**20** homebound seniors receiving food deliveries every week	**20** young adults trained and placed in jobs through our workforce partners	**4** community outreach events
4 homes with curb appeal restored by veteran-led crews	**1** community garden planted	**2** home buyer classes	**2** financial literacy classes

Planned Collaborations (In Development)

Following our last-mile approach, we have vetted established programs that already do this work well and plan to bring them to the hub rather than duplicate them. These conversations are underway or planned; they are not yet formal agreements.

Area	Organization	Role at the hub
Seniors	Osceola Council on Aging	Last-mile staging and delivery of Meals on Wheels to Intercession City and Campbell City
Veteran mentoring	Travis Manion Foundation; UCF Soldiers to Scholars	Character Does Matter curriculum; proven model for the Vanguard Scholars mentor program
Youth	New Worlds Reading; Junior Achievement of Central Florida; Take Stock in Children; HAPCO Music Foundation; UF/IFAS Osceola 4-H	Literacy, financial literacy, scholarships and mentoring, arts and culinary programs, and youth gardening
Re-entry	Valencia College YouthBuild; Florida Department of Corrections Bureau of Re-entry; Federal Bonding Program	GED and job training referrals, a local re-entry resource point, and free fidelity bonds for employers who hire returning citizens
Housing	NeighborWorks America (NCHEC)	Certification and training for homeownership counselors
Recreation	Boys & Girls Clubs of Central Florida	Future club site supporting our goal of a recreation center in Intercession City

Future Programs We Hope to Bring to the Hub

As the hub grows and resources allow, we hope to welcome these additional proven programs, each adding opportunity without duplicating work done well elsewhere.

Area	Programs we hope to bring	What they would add
Youth sports & leadership	3D Institute; Youth on Course; USTA youth tennis; CAST for Kids	Leadership through sports, low-cost golf, tennis instruction, and fishing events that include children with disabilities
Youth arts	United Arts of Central Florida; Dr. Phillips Center education programs; Florida Symphony Youth Orchestras	Teaching artists, performing arts classes and a pathway for talented young musicians
Veterans	PGA HOPE; Valencia College Veterans Affairs; AMVETS	Golf for veterans' wellness, recruitment of Vanguard Mentors, and our goal of chartering an AMVETS post in Intercession City
College access	Florida College System Foundation	Scholarships for student-veteran mentors and trade academy graduates
Literacy & early childhood	YMCA of Central Florida (Osceola Reads); The Children's Movement of Florida	Literacy programming and advocacy for affordable early childhood care
Workforce	Second Harvest Food Bank career pathways; Jails to Jobs resources	Culinary job training tied to our community kitchen, and free job-search guides for returning citizens

Private-Sector Partner & Disclosure

TPKBPRO Commercial Kitchen Installation (Lead Private-Sector Partner)
TPKBPRO is a social enterprise that, with the support of CareerSource Central Florida, is committed to hiring returning citizens and at-risk youth, guided by the belief that changing a life changes a family, which changes a community. A Better Tomorrow World grew out of that model. TPKBPRO is dedicating its licensed crews to rehabilitate, paint, pressure-wash and landscape the 1525 Immokalee St facility, an estimated $10,000 in donated work at no cost to Osceola County, and will offer paid apprentice and career opportunities to our graduates, who remain free to work for any employer.

Disclosure: TPKBPRO is owned by our President, Danilo A. Nunez. Our board is adopting a written conflict-of-interest and separation-of-roles agreement under which every decision involving TPKBPRO is made by the board's disinterested directors, any in-kind work is recorded as a donation, and no payment to TPKBPRO is made without their approval at fair market value.

Leadership & Governance

All three founders serve as directors without compensation.

Danilo A. Nunez	Founder; Board President; CEO and Chief Human Resources Manager
Ismael Adorno	Co-Founder; Board Treasurer; COO and Chief Sustainability Officer
Jahaira Graciani	Co-Founder; Corporate Secretary; CMO and Chief Sales & Revenue Officer

The Public-Private Pathway & Our Request

We propose using Florida Statute § 125.38, which allows the Osceola County Board of County Commissioners to lease county property not needed for county purposes to a not-for-profit corporation organized to promote community interest and welfare, for a nominal fee such as $1 per year. As a Florida not-for-profit corporation, A Better Tomorrow .World Corp qualifies under that statute today. The county turns a vacant building into an active hub driven by private-sector support, professional trades and veteran-led volunteers.

We propose a clear division of responsibilities in the lease: A Better Tomorrow World and its partners will care for the building's exterior, grounds and day-to-day upkeep, while Osceola County's facilities technicians continue to service the county-owned HVAC unit, as they do today, keeping that equipment in expert hands.

We are eager to work with your office to bring this vision to life. We respectfully request a brief 15-minute introductory meeting with you or your staff to review our program plans, walk through the property and outline the next steps for leasing and restoration.

Respectfully submitted,

_____
